## ABOUT US

**İntegral Endüstri**, was established in 2003 to provide services in the field of industrial product supply to organizations engaged in commercial and administrative purposes.

With over 100.000 product range, we provide wholesale and retail sales services to factories and retail customers. We offer 24-hour service to our customers with our 4000 m<sup>2</sup> closed area, 15 service vehicles and 45 competent personnel. With our product range, which we continue to increase day by day, we aim to ensure that our customers can meet their needs from one place, quickly and smoothly.

Our current product groups include electrical products, valve and condensor groups, pneumatic materials, power transmission products, packing and water-steam heads, plumbing materials, bolts and fasteners, gasket and sealing products, hardware materials, hand tools, paint products, hose types, cutting and abrasive products, drill bits and guides, welding machines and consumables, occupational safety materials, industrial wheels, insulation materials and mineral oils.

We are pleased to be the solution partner of our customers with our high quality products, reasonable prices and fast - safe service policy. We aim to carry our cooperation into the future by maintaining our innovative, reliable service understanding that does not compromise on quality.

### Vision

Our vision is to be among the leading companies of our country in the industrial sector in which we operate by continuously improving our product range, technical support, service-distribution network and adding value to our pioneering company profile with our well-equipped personnel.

### Mission

Our main mission is to provide world-class, high quality, fast and reliable service in the industry sector in which we operate by adopting environmental awareness, transparency, innovation and customer satisfaction in our corporate values.
